

Week 03 - SQL & Relational Thinking

Module: Data

Core Track

Tables, keys, joins, normalization basics, raw SQL.

Stretch Track

Read EXPLAIN ANALYZE and optimize a slow query.

Interactive Focus

Timed SQL kata against an intentionally messy dataset.

Weekly Rhythm

Day 1: Concept + Live Build

Day 2: Lab + Pair Programming

Day 3-5: Review + Challenge

Deliverable

Correct SQL queries using joins and normalized relationships.
