

Week 07 - API Design at Scale

Module: Building Real APIs

Core Track

Pagination, filtering, sorting, consistent errors, versioning.

Stretch Track

OpenAPI/Swagger documentation and contract linting.

Interactive Focus

Code review swap using an API-design rubric.

Weekly Rhythm

Day 1: Concept + Live Build

Day 2: Lab + Pair Programming

Day 3-5: Review + Challenge

Deliverable

A scalable, consistent API interface.
