

Week 09 - Docker & Environments

Module: Shipping It

Core Track

Dockerfile, docker-compose with Postgres + Redis, environment variables.

Stretch Track

Multi-stage builds and healthchecks.

Interactive Focus

Containerize a partner's broken or undocumented project.

Weekly Rhythm

Day 1: Concept + Live Build

Day 2: Lab + Pair Programming

Day 3-5: Review + Challenge

Deliverable

A reproducible containerized backend stack.
