

Week 11 - Observability & Scaling Concepts

Module: Production & Capstone

Core Track

Structured logging, monitoring, horizontal scaling, microservice trade-offs.

Stretch Track

Distributed tracing or Prometheus/Grafana.

Interactive Focus

Incident simulation using logs only.

Weekly Rhythm

Day 1: Concept + Live Build

Day 2: Lab + Pair Programming

Day 3-5: Review + Challenge

Deliverable

A capstone API with an observability strategy.
